

WELCOME HOME TO QUALITY AND STYLE

WITH OUR EXCLUSIVE RANGE OF COMPOSITE DOORS

 **TruFrame**

Beautiful protection for your home

You shouldn't have to compromise on aesthetics, security or durability when it comes to your home's entrance. Our range of composite doors offer the perfect blend of style, resilience and functionality.

Our composite doors are meticulously crafted to redefine the standards of excellence, while providing an array of incredible benefits that are sure to enhance your living experience. We understand the need for a door that not only offers security but also enhances the aesthetic appeal of your home.

Our doors come in a wide range of designs, colours and finishes, allowing you to choose the perfect style that matches your home's unique character. Whether you prefer a traditional, contemporary, or designer look, we have the ideal door to complement your taste and elevate your home's kerb appeal.

Superior quality

Renowned for their solidity and energy efficiency, our composite doors are proudly made in Britain and are the only choice when it comes to securing your home and your family.

Styles to compliment any home

With a wide range of classic, contemporary and rural styles, our elegant composite doors enhance any property.

KEY DETAILS

- Durable and low maintenance
- High security locking system
- Insulating foam core
- Environmentally friendly
- Secured by Design (Available upgrade)

1 Design options
There is a comprehensive selection of styles across our range of Composite Doors.

2 Hardware options
Make your door stand out from the rest. From Pull Bar handles to Victorian knockers in a variety of colours.

3 Glazing options
Each design offers something different to the overall look. There's a style to suit every type of home.

4 Highest security
Keep intruders at bay with a multi-point lock and cylinder, designed to withstand all attack methods.

The perfect system

Choosing our advanced door system might be one of the best home improvement decisions you will ever make.

Unrivalled insulation
High density Polyurethane foam core provides exceptional thermal insulation and sound deadening.

Increased strength
The Laminated Veneer Lumber (LVL) engineered subframe is cross-bonded and has no knots, for improved strength and durability over conventional wood.

Vapour shield
Expanded PVC section provides rigidity while also being a thick barrier to prevent water ingress.

Superior frames
Multi-chambered profile system prevents heat transfer, while three separate weatherseals prevents draught and water penetration.

Tough outer layer
Thick GRP skins in either an authentic woodgrain or Links etched finish, the latter of which perfectly matches the look of aluminium.

Door styles at a glance

From traditional to contemporary, cottage to designer, whichever door style you choose, it's guaranteed to bring enduring style to your property.

Our composite doors are available with Standard, Flat Grain, Flat Stipple or Inox glazing cassettes (depending on door style), allowing you to select the perfect style to complete your door.

Woodgrained and Moulded
These doors have a simulated woodgrain pattern to give them an authentic timber appearance.

Links Etched Finish
These doors have a unique 'stippled' texture to give them the appearance of aluminium doors.

Left and right options
These door styles are available in a left and right glazing option.

Complete peace of mind

The security of your home is of paramount importance to us, which is why we use the most secure multipoint locking systems on all our doors as standard, providing your home with the protection it deserves.

Lever operated

Doors specified with a lever/lever and lever/pad handle are supplied with a 5 hook multipoint door lock as standard.

Twin hook locking points provide next-generation enhanced security and are engaged when the handle lever is lifted and then the door is simply locked/unlocked by using the key.

Slam operated

This high-performance, multipoint slam lock is generally used in conjunction with 'Pull' handles.

The mechanical self-locking system ensures that the door is securely locked against uninvited entry when simply pulled shut. From outside, the latchbolts are retracted and the door opened by a simple turn of the key.

Heritage slam operated

The Heritage slam lock will help you achieve a classic door appearance which is both secure and functional.

The Heritage slam lock works in a similar way to the slam lock, although the lock is positioned higher up the door. Simply by closing the door, the top and bottom latches strike the keep and fully engage to become secure deadbolts.

High security

Awarded the Police 'Secured by Design' accreditation, our multipoint locks have been rigorously tested to the very highest security standards.

British built

Production, testing and assembly of all our door locking systems, are carried out in the UK.

Intelligent locking

Intelligent, compact and robust locks, which work perfectly with the design of our windows and doors.

10 year guarantee

The multipoint locking system comes with a 10 year guarantee as standard, providing complete peace of mind.

A break from tradition

Unlike traditional cylinders, the BreakSafe has been designed to allow a section of the cylinder to "break away" in the event of a snapping attack. Giving you additional peace of mind, at no extra cost.

Perfectly flush

The BreakSafe cylinder face finishes much closer to the handle backplate, providing even greater protection from attack.

Polished finish

A variety of options are available including ergonomic thumbturn, in two high quality finishes - polished chrome and polished brass.

The highest level of protection

The patented locking cam system of the ATK lock is proven in the market to effectively combat against lock snapping and forced entry methods of attack.

Sold Secure Diamond

ATK has the Master Locksmith Association's highest rating - SS312 Sold Secure Diamond, TS007 3 star rating, British Kitemark and Secured by Design accreditations.

Finishing touch

Dual colour polished Chrome/Brass or Matt Brass options available, including ergonomic thumbturn variants.

The finishing touch

Once you've chosen the design of your door, you can exercise your creativity with a huge choice of colour, finish and styling for your door hardware, security and accessories.

Make a statement with a wide choice of handles, letterplates, knockers and spyholes.

Thresholds

This part of the door may go unnoticed, but plays a crucial part in ensuring easy access in and out of a home.

Paired with gaskets and door frames to seal the bottom opening between the sash and the frame, they prevent water ingress and reduce energy loss, which increases thermal efficiency.

External height: 67mm
Internal height: 47mm

uPVC Frame

Our standard threshold option, which also provides excellent thermal efficiency. This is generally used where the internal floor is raised or when a thicker flooring, such as carpet, is used.

External height: 15mm
Internal height: 10mm

Part M compliant

With a maximum height of 15mm, this threshold creates a low step over when the door is open making it suitable for disabled and wheelchair access.

External height: 30mm
Internal height: 20mm

Aluminium Low and with Half Tray or Full Tray

Less than half the height of our standard option, these threshold solution are designed for wheelchair users and those with certain mobility needs. Whether a half tray or full tray would be most suitable is determined by the specific features of the property, and would typically be determined by the surveyor.

Max. External height: 33mm
Internal height: 23mm

Max. External height: 33mm
Internal height: 23mm

Open up a world of colour

To ensure the perfect match, all our doors and frames are available in a wide choice of colours.

With nine standard colours and over 60 premium colours, not to mention the limitless possibility with RAL® and Farrow & Ball® colours as an optional extra, creating the look you want has never been easier.

Frame colour

Available in a variety of colour combinations to compliment your door. Standard colours include White, Cream White, Rosewood, Golden Oak, Irish Oak, Anthracite Grey, Slate Grey and Chartwell Green.

Dual colour

Choose a different external and internal colour, for a truly unique look!

Door colours shown in this brochure should be used for guidance only. We have made every effort to match the colour and stain you see in the brochure, so it's as close as possible to our paint when applied to the doors. Due to the nature of the product it is applied to there is sometimes a difference between them, which unfortunately we cannot avoid. The colour, intensity and sheen level may differ from the paper print version and we do not accept any liability for this for any reason. Longer lead times are required with premium colours. All doors come with white interior as standard.
